Comments:

The police department has no objections to the application as submitted at this time.

The final approval of this development should be subject to the proper installation of all required traffic control signs and devices to include stop signs, pavement markings, prohibited parking areas, caution signs, speed limit signs, etc.

I would also recommend that additional cautionary signs be placed on Adams Rd. on approach to the proposed development's entrance warning motorists heading in a northerly or southerly direction to be aware of increased traffic.
